PROFESSIONAL SUMMARY

Backend-focused full-stack developer skilled in building scalable web and mobile applications. Experienced in REST API development, database design, and system architecture. Passionate about creating efficient, production-ready systems and solving real-world problems using modern technologies.

TECHNICAL SKILLS

Frontend: HTML, CSS,
JavaScript Backend: Node.js,
Django

Database: MySQL, Firebase Firestore,
PostgreSQL Mobile: Flutter, Kotlin

Tools: Git, GitHub, REST APIs, Firebase, VS Code

PROJECTS

Food Orbit - Smart Food Ordering System

- **Built full-stack application with REST APIs and role-based authentication.**
- **Developed admin dashboard for managing users, orders, and menu.**

PoultryFresh Farm Management System

- **Developed backend system for tracking inventory, production, and sales.**
- **Integrated Flutter mobile app with REST API service.**

E-waste Exchange Platform

- **Built marketplace with role-based access (Admin, Buyer, Seller).**
 - **Implemented backend logic for listings, offers, and transactions.**
-

EXPERIENCE

Software Developer (Personal Projects) [2023 – Present]

- **Designed and built full-stack applications using modern frameworks**
- **Developed RESTful APIs and optimized database performance**

UEAB Google developer groups [September 2025]

Spearheaded the onboarding of 30+ new members to the android development track during the orientation week.

EDUCATION

University of Eastern Africa, Baraton [2022 – 2027]

Bachelor of Science in Software Engineering

AC Butonge High School [2018- 2022]

Kenya Certificate of Secondary Education (KCSE)

CORE STRENGTHS

- Problem-solving & system design
 - Fast learning & adaptability
 - Strong focus on backend performance and efficiency
